

By allowing individuals to file multiple applications for a particular callsign, it is apparent that the current vanity callsign application process has created a 'callsign lottery'. This provides those who file multiple applications for a callsign with an unfair advantage over other filers. It seems to me that this is contrary to the basis and purpose of Amateur radio in providing equal access to all persons. I fully support the comments in RM-10582 and believe they should be adopted.
